

Separate Shipments for CFR, FR, & CR

In May, 2009, GPO started distributing paper editions of Federal Register, Congressional Record, and Code of Federal Regulations as separates rather than including them in the regular depository shipment boxes.

Their GPO-issued shipping lists should be completed about the same time the publications are shipped. Electronic versions of the shipping lists can be found on [Shipping Lister](#) in .pdf version, and the [Federal Bulletin Board](#) in .dbf version.

Shipping lists are included in the regular depository shipment boxes. Read this [article](#) for more information about shipping lists.

The change was made to facilitate shipment of these important resources to selecting depository libraries as quickly as possible. LSCM believes that more timely arrival of these titles will be of benefit to all selecting libraries. Analysis showed that there are no additional costs related to shipping these publications as separates. If you have any questions, please do not hesitate to contact us.
